### **NBR Home Care Plan**

#### **UP-KEEP**

Wash your NBR at a minimum of 2 times per week with a Davines shampoo and conditioner, use a Davines deep conditioning mask once per week, and Davines' Oi oil daily. This will keep your extensions and scalp in a healthy condition. Brush your extensions and natural hair at a minimum of 2 times per day. Use Davines' Oi - oil to help with tangles. Staying on top of brushing will keep your extensions and natural hair from deep tangles. Brushing will also help with the longevity of your extensions and help prevent your natural hair from breaking.

*\*When coming in for a service at Angela Flint Hair, it is required that your extensions and natural hair be thoroughly brushed out and free from any tangles before your appointment. If you come in with your hair tangled or matted, I have the right to refuse service, and charge you for your full service amount.*

#### **PRODUCTS**

At a minimum, use a Davines shampoo and conditioner, hair mask, and oil.

#### **PRE-WASHING**

Gently brush your extensions and natural hair. When brushing, hold your hair in partial pony-tale sections and brush section by section, starting from the bottom working your way up. When you get to the top, press your row to your head in a secure position while brushing. Davines' Oi oil, or All-in-one milk helps for a smooth brushing experience.

#### **WASHING**

Clip your extensions and natural hair up in 3 sections. Gently wash each section, use your Davines shampoo sparingly. Let each section down as you complete the one prior. Clip the top 2 sections back up and rinse out each section thoroughly. Gently squeeze out as much water as you can and towel dry. Lastly, condition your extensions and natural hair with your Davines conditioner. When conditioning focus on your mid-lengths and ends. (You can rake through your scalp what's leftover on your hands.) Let the conditioner sit for 3-5 minutes and rinse thoroughly. Gently squeeze out as much water as you can & towel dry.

**DRYING**

Work in Davines' Oi oil, or spray Davines' All-In-One Milk leave-in conditioner on your mid-lengths and ends before gently brushing out your extensions and natural hair. Towel dry again, then apply Davines' Oi oil from mid-lengths to ends and let air dry or gently blow-dry. When blow-drying, clip your extensions and natural hair up in 3 sections and dry from the base of your head to mid-lengths to ends. Use your hand to control each section, dry to 90%. Use a round brush or a paddle brush with minimal tension to finish drying and smoothing out your extensions and natural hair.

**STYLING**

When you're curling your hair, run the iron through each section once or twice to smooth it down before placing the curl. This will give your extensions a more polished look and prolong your extension hair.

**SLEEPING**

Brush your extensions and natural hair out and place them in two loose braids. If needed, use your Davines' Oi All-In-One Milk, or Oi oil to detangle.

**OTHER**

After a few washes, your extension hair will expand, giving it a more realistic hair texture. If you notice any excessive tangling or shedding contact me right away, these are quick fixes if addressed immediately. You can live a regular active lifestyle with NBR, treat your extensions with some gentleness to keep them looking their best. Enjoy your NBR!

*\*Avoid getting sunscreen in your extensions as it may cause them to turn a peach color, and I will not be able to fix them for you. The only solution will be to replace them at full cost.*

**The undersigned agrees to the NBR Home Maintenance Plan, as stated above.**
